Support the expansion to the District's local Child Tax Credit and pass the Financial Support for Families with Children Act by signing our letter.

The expansion of the 2024 District Child Tax Credit (DCTC) law will deliver a refundable credit of up to \$500 per child for up to three children under the age of 17 to low- and moderate-income DC families. The companion Financial Support for Families with Children legislation is targeted to low-income residents with an additional \$500 per child. Together, they could cut child poverty in the District by more than 10%, based on PolicyEngine analyses.

Sign our petition letter in support of these bills at bit.ly/DCGICSign-OnLetter.
